

## LINDFIELD PRIMARY SCHOOL, WEST SUSSEX

■ Copper Veral Project

Client : West Sussex County Council  
Contractor : Breyer Group Plc  
Completed: August 2009

Size: 45m<sup>2</sup>  
System Used: Langley Built up Felt Roofing System

### Lindfield Primary School

The lead covering to this rotunda roof at Lindfield Primary School, West Sussex had been stolen, and approved contractor Breyer Group Plc turned to Langley for a new waterproofing system.

Rather than replace the lead, and given that the school is within a conservation area, it was agreed to re-cover the rotunda using a Langley Copper Veral membrane.

This makes an impressive change to the original roof and complements its design perfectly. Although a small project in comparison to some, this installation shows that with the right products a statement can still be made on a small roof area.

#### Products:

Adepar JS (base layer)  
Copper Veral
